

Ananya Iyer

Frontend Developer · React, Next.js, TypeScript

ananya.iyer@example.com · +91 98765 43210 · Bengaluru, Karnataka, India · [linkedin.com/in/ananya-iyer-example](#) · [github.com/ananya-iyer-example](#)

SUMMARY

Frontend developer with 3+ years building fast, accessible React and Next.js applications for fintech products. Comfortable owning features from design hand-off to production monitoring.

EXPERIENCE

Frontend Developer — Kestrel Pay

Bengaluru · Full-time · Apr 2023 – Present

- Rebuilt the merchant dashboard in Next.js and TypeScript, cutting page load time by 38%.
- Built a shared component library with Storybook used by 4 product teams.
- Introduced React Testing Library and Jest, raising unit test coverage from 22% to 71%.
- Worked with designers in Figma to ship an accessible checkout flow meeting WCAG 2.1 AA.

Technologies: Next.js, React, TypeScript, Tailwind CSS, Storybook, Jest

Associate Software Engineer — Lumen Logistics

Bengaluru · Full-time · Jul 2021 – Mar 2023

- Developed shipment-tracking screens in React with Redux Toolkit and REST APIs.
- Reduced bundle size by 120 KB by code-splitting routes with React.lazy.
- Fixed cross-browser layout issues for Safari and older Android browsers.

Technologies: React, Redux Toolkit, JavaScript, Sass, REST APIs

PROJECTS

Budget Buddy

Personal finance tracker with charts and offline support.

- Works offline as a PWA with background sync.
- Visualises monthly spending with Recharts.

React, Vite, IndexedDB, Recharts · [github.com/ananya-iyer-example/budget-buddy](#)
